Advantages of an "On Demand" Solution

Attendance on Demand™ from InfoTronics® offers you a new business model that is replacing traditional time and attendance software. Unlike software vendors that have rushed to retro-fit legacy systems, Attendance on Demand has been designed and built from the ground up using a true online solution architecture.

- No need to buy and install servers and software at your site.

- No need to maintain, manage and constantly upgrade servers and software over time.

- Your data is protected by industry-standard security.

- You are served by certified, professional technicians.

- Lower total cost of ownership over time.

- Less configuration, less complexity, less maintenance cost.

- Fixed, known IT costs over time.

- No expensive and disruptive "upgrades" to worry about.

- No falling behind on versions.

Demand More from Attendance on Demand

Attendance on Demand is supported by a nationwide network of certified InfoTronics experts that stand behind your business.

Leverage InfoTronics' singular focus on time and attendance processing, drawing on over 25 years' experience in labor management technology.
